Zach Smith

Los Angeles, CA ▪ (864) 907-5852 ▪ zsmith2421@gmail.com ▪ linkedin.com/in/zsmith2421 ▪ github.com/zsmith808

EDUCATION

University of California, Los Angeles (UCLA) Los Angeles, CA
*B.S. in **Statistics and Data Science**, Minor in **Data Engineering*** *Expected Dec 2026*

- ***Cumulative GPA**:* 3.7/4.0
- ***Relevant Coursework***: Statistical Models, Data Mining, Statistical Computation, Experimental Design, Machine Learning

TECHNICAL

- ***Languages***: Python (pandas, numpy, scikit-learn, matplotlib, pytorch) ▪ R (dplyr, tidyr, ggplot2) ▪ C++ ▪ SQL
- ***Applications***: Databricks ▪ Power BI ▪ Azure ▪ Git ▪ Microsoft Office ▪ Jira ▪ Confluence
- ***Skills***: Statistical Modeling ▪ Feature Engineering ▪ Experimentation ▪ Predictive Modeling ▪ Dashboarding

PROFESSIONAL EXPERIENCE

Unilever | *Fortune Global 500* Hoboken, NJ
Data Science Intern *Jun 2025 – Aug 2025*

- Built a dynamic customer segmentation model that identified target operator clusters with 325% higher purchase rates
- Engineered features from large-scale sales and operator data 15TB+ to support clustering and predictive models
- Productionized an end-to-end pipeline in Databricks, enabling scalable deployment across multiple markets
- Translated business objectives into ML solutions adopted by 4 cross-functional teams to inform market level strategy

Course Kata | *Teaching and Learning Lab* Los Angeles, CA
Data Scientist *Jan 2026 - Present*

- Engineered engagement features from 5M+ timestamp events across 20K students to identify key learning predictors
- Implemented automated data quality checks, reducing missing/malformed data by 25% and improving model reliability
- Delivered insights to leadership that influenced product and engagement strategy for the Course Kata Platform

UCLA IT | *UCLA Digital & Technology Solutions* Los Angeles, CA
Endpoint Solutions Analyst *Mar 2025 - Present*

- Developed GPT workflows, assisting in ticket triage and label generation, increasing ticket productivity by 5x
- Built Tableau dashboards analyzing performance of 20+ IT employees, directly driving operational strategy changes
- Utilized Qualys and BigFix software to id and remediate vulnerabilities across +1000 devices within the UCLA network

PROJECTS

Prop:Metrics | https://www.prop-metrics.com/ *Sep 2025 – Present*

- Productionized forecasting model for housing prices in 1 year with real time data integration through Zillow API

Tuned In | *Python: Pytorch, librosa, Pandas, numpy* *Apr 2025 – May 2025*

- Analyzed dataset of mp3 file songs to determine what makes a beat drop and built a CNN model to predict drops

California Trout Analysis | *Python: Pandas, numpy, matplotlib* *Mar 2025 – Jun 2025*

- Identify key seasons and location to fish for Trout within California, create web application that tracks caught fish

March Madness Predictor | *Python: xgboost, Pandas, numpy, matplotlib* *Jan 2025 – Mar 2025*

- Created a model using XGBoost to predicted the march madness bracket, completed with ~75% tournament accuracy

LEADERSHIP

Bruin Machine Learning & Analytics | *UCLA club* Los Angeles, CA
Co-founder, President *Sep 2024 – Present*

- Developed a data science club that builds data science projects resulting in a machine learning model + BI dashboard
- Established a collaborative workflow using GitHub and cloud platforms, creating 6 end-to-end data science projects
- Led 10+ workshops on machine learning, career development, and technical tools in collaboration with industry partners

UCLA Vintage & 3 Tees | *Vintage clothing business* Greenville, SC & Los Angeles, CA
Co-founder *May 2022 – Present*

- Developed a successful vintage clothing business, achieving consistent monthly profits around $1,000 totaling ~$10,000
- Managed social media gained over 4000 followers, organized 5 markets attracting over 30 vendors per market

Interest

- ***Interests:*** Backpacking, Chess, College Football**,** Electronic music, Fitness, Fishing, Formula 1, Thrifting, Travel
